

Welcome to Muld Lolland-Falster!

In this brochure, we introduce a selection of companies, who farm, cultivate, use, sell, eat, and enjoy the local food, that is cultivated all over Lolland-Falster.

We call this network Muld Lolland-Falster.

You might not have considered it, but Lolland-Falster, or the South Sea Islands as we are also called, has always been a pantry of food and resources for the rest of the country.

Falster and Lolland have some of the richest soil in Denmark, which gives perfect conditions for producing food, gourmet experiences, and enjoying life.

There is a suitable amount of rain and wind, but we also have more hours of

sunshine and a milder climate than most other places in Denmark. We have woods, beaches and fields, lakes and streams, historical sites, and small towns with harbours and ocean views – the perfect surroundings for gastronomical surprises.

In this brochure, we have gathered a bouquet of representatives for those who live off the land. In the first half of the brochure, you will meet restaurants and eateries that focus on using local foods. They are important to the local communities and the local economy - and they also make seriously good food.

In the second half, you will be introduced to some producers who are just as important for the local food-chain. They cultivate their crops and produce food with contagious pas-

sion. Without them, there would be no Muld Lolland-Falster.

They all use local resources to create new, local values. They are innovative and create new workplaces, supporting local culture and products. It is a healthy and sustainable collaboration, which everyone benefits from.

We hope that you will be inspired to visit us and enjoy the fruits of Lolland-Falster!

Café Vin og Brød A unique shop in the center of Maribo

Our shop is part café, part wine shop – and we also sell homemade bread. Our focus is on local products and we constantly seek new inspiration and suppliers from Lolland-Falster.

Our bread comes from the award-winning Pabst Bakery. Our slow cooked dishes are made with eggs and chicken from Dalbakkegårds amazing fowl. The beer is from Krenkerup Brewery, the cherry wine from Frederiksdal. Cider, marmelade, and pasta are quality products from the neighboring island, Fejø. And the list continues.

We love our talented, local producers and use their products in our menus and in the shop. We believe that you can taste the passion of the craft.

Our wines are from “2010 Vin&Vel-

smag”. Our menu is the rustic farmer's kitchen at its best.

Den Gamle Digegaard

- the cosy inn on the coast with our own smokehouse, restaurant

The Digegaard Inn bids you welcome under our thatched roof. The old timbered buildings have hosted exciting parts of Lolland's history.

Situated just behind the dike, the inn is just a few steps from the Baltic Sea and has one of the best beaches for bathing on Lolland's southern coast. Have a swim, go fishing or take a lovely walk or biking-trip on Europe's

newly named best biking route – Østersøruten N8.

With the Baltic Sea next door, fresh fish is a natural resource, and fried eel has always been a specialty of the inn. We also provide a large variety of smoked fish from local fishermen, which you can bring home or enjoy on the spot with Digegaarden's own brew.

We also offer holiday houses for accommodation.

Take of your shoes, feel the sand between your toes and stay a couple of days.

LF Vin og Bryg - a real adventure on Southern Falster

LF Vin og Bryg has a little vineyard with 2000 grape vines and a micro brewery with a 300 liter brewing plant. We have conducted tours in the vineyard/in the brewery several times per week during the summer and on demand with following wine and beer tasting in Café Købmandsgården. We are happy to receive larger groups. We mostly produce light ale beer.

You can also find local design and locally produced food in our shop. In our cosy café, we serve the best burgers in the area with fresh home-made fixings, a tapas-plate or how about the biggest open sandwich with shrimps on Lolland-Falster! We have 4 B&B rooms for hire and we like to arrange a brewing weekend or a cosy weekend for groups.

Oreby Kro

Tasty experiences by Sakskøbing Fjord

Lying peacefully on the shore of Sakskøbing Fjord, Oreby Kro has the most beautiful view. Our vision is to serve delicious food made from good local produce.

Our vegetables come from our own farm on Nordfalster where we grow potatoes, rhubarbs, garlic, pointed cabbage, and much more.

Our meat is mostly from local farms on Lolland-Falster and we buy game from the nearby manors.

In summer, we are self-sufficient with fruit, berries, and herbs which we use in our dishes. Our menu follows the year.

We serve quite different kinds of food - from the classic folk kitchen to new interpretations of Danish classics to new and exciting dishes made of available ingredients and the cooks own magic.

Oreby Kro is open all year around and is managed by chefs Filip Kardel.

Pitstop Idestrup Gastro-café and experiences

Café Pitstop Idestrup is an ambitious café in the heart of Falster. Since we opened in 2018, we have explored new ways to run a food business in a local village in rural Denmark.

A visit to Pitstop Idestrup is special in that we serve honest, local food at affordable prices.

The ingredients are treated with the respect they deserve. At Pitstop we follow a “made-to-order” concept which ensures that our customers always get Falster’s meanest burger, freshly made.

We rely mostly on local products, including locally produced beer, wine, and barista coffee.

Pomle Nakke Traktørsted Sky and sea

Pomle Nakke lies about 30 km from the Farø-bridge. It is a beautiful, old restaurant in the woods of Falster's eastern shores, neighboring the small

harbour of Hesnæs. It sits on top of a small cliff, where only the sounds of the sea and the wind in the forest trees will “disturb” you.

Sit inside or outside and enjoy a cup of good coffee with cake, local beverages, a cold beer, or a glass of fine wine. We serve both light and more substantial dishes, and our cooks use local ingredients from Falster’s well-stocked pantry.

Our head chef, Christoffer Brink, works with a classical menu, but also seeks to challenge your taste buds. Most dishes will be based on the seasons local produce.

The restaurant is open weekdays from early summer to mid-September. Outside of this period, we are open Thursday – Sunday. Find more information at pomlenakke.dk

Postholderens Sted Sustainable and organic food

Postholderens Sted (The Postholders Place) is a family business. We work with sustainability, bio-ecology, organic crops and sheer love of rural food. The innkeeper is a musician, so you will often be accompanied by music when you visit our place.

One of our interests is introducing the round goby, a lowfat, invasive white-fish, to the dinner tables of Denmark and beyond. We buy our fish from a

local fisherman, make pesto from nettles and wild garlic, and collect and dry seaweed.

We are also excited about local dishes where the food reflects the season, the soil, and weather conditions.

We have an orchard with old apple and pear varieties. Sheep graze the orchard and the weeds grow wild and abundant. It is lovely, especially since

we can use the weeds for our pesto. The ripe apples are used for cooking and for making the most amazing apple juice.

Restaurant Fjorden Front row to beautiful Nakskov Fjord

Restaurant Fjordens name comes from its unique location on Nakskov Fjord. We have a lovely, full view of the ever-changing waters of the fjord.

Elin Hellesøe has managed the restaurant for over 20 years. Many of the vegetables and fruits used in the kitchen come from her own farm at Maglehøj Strand.

The restaurant has an “edible terrace” with herbs and strawberries. At Restaurant Fjorden we serve good, Danish food with lots of local ingredients, such as fresh fish from Langø – and everything is made from scratch. Close to camping and the marina.

Restaurant Gonzalez Feilberg

A new way of dining out

Our first restaurant lies in the heart of Nakskov, on Nakskov Torv. The new restaurant in Nykøbing Falster - MARE - is situated close to the water in the trendy harbour area called Slotsbryggen.

We make a point of using local products and producers, and our wine

card is limited to wines from Europe because of the CO2 discharge.

Our concept is smart casual, and we serve all the dishes in the size of our starters at the same price. You can see the menu on the joint homepage for both restaurants.

Restaurant Najaden

Fresh fish and homebrewed beer

Visit Restaurant Najaden in Gedser Marina, which is run by Kristian

Thomsen, who has given this charming place its own feel for the past 30 years or so.

You can always try fresh fish of the day, often from the belt of Langeland, or try the popular steak with brandy sauce or various other dishes from the menus, that Kristian has created. Herbs and berries are grown in our own garden.

Over the winter, Kristian brews beer for the restaurant in a 20-litre system, completely without additives – only malt, water, and hops from the area around Vålse. Local flavourings such as blackberry, rhubarb, and others make fun variants.

Look forward to wonderful holiday evenings with an amazing sunset over the Rødsand seal sanctuary.

What is Muld Lolland-Falster?

Muld Lolland-Falster is a network of enthusiastic food producers, food developers, restaurants, eateries, farm shops, and gastronomical entrepreneurs who share a passion for working with the fertile soil of Lolland-Falster.

The purpose of the Muld network is to improve knowledge of the area and its production, to create jobs and employment, and to increase revenue and sales for local companies that grow, raise or process local food products from Lolland-Falster.

Muld was established in 2017 because of a growing awareness of the benefits of working together to improve local production and sales of foodstuffs from Lolland-Falster. In that process, a common strategy was developed and a number of initiatives were structured and set in motion. The Muld businesses have since taken part in many events and activities, such as Madens Folkemøde and Sydhavsøernes Food Week. One of

the latest ideas is the new Muld sales shelf, where local producers present their products together.

The shelves are a local showcase that visualise the many types of quality foods produced on Lolland-Falster. The purpose is to improve knowledge and sales of the participating producers.

The latest addition is a joint sales company with belonging storage and logistic function, which contributes to an increased turnover of food produced on Lolland-Falster, to new and bigger purchasers both locally and outside of Lolland-Falster. The purpose is to increase the turnover and the productivity of the local food producers and at the same time solve challenges connected with transport and distribution.

Muld consists of the participating businesses and is supported by Business Lolland-Falster, who is responsible for

business promotion on Lolland-Falster. Further, the network is supported by the two municipalities, Lolland and Guldborgsund, with a strong, municipal focus on tourism and local food culture. Muld Lolland-Falster works with a wide range of stakeholders to encourage development in business, agriculture and gastronomy on Lolland-Falster.

Dalbakke Farm

Organic free-range chickens

Dalbakke Farm lies in the south-eastern part of Lolland and has passed through 8 generations of the same family. We produce organic free-range chickens, ducks, and eggs, and we put our hearts into raising our animals.

We are specialised in meaty, organic chickens, who live their lives under optimal conditions on our large grass areas. This produces healthy and unstressed animals with plenty of good meat and a good taste.

The birds are hand-butchered and packaged on Lolland – ready for the pan, barbeque, or oven.

Our free-range, eco-chickens enjoy their lives on large meadows, which gives the eggs a natural yellow yolk and a fantastic taste.

We sell our eggs in our farm shop (open daily), and to selected restaurants and shops. If you eat duck for Mortens Evening in November, or for Christmas, you can look forward to tasting ours.

Ellekær's Beekeeping Honey from Falster

Ellekær's Beekeeping has produced local honey from Falster every spring and summer since 2011. We reside in

Hasselø Plantage, which is the Danish name for Hasselø Orchard.

Hasselø Plantage used to be an island in the southern part of the strait of Guldborgsund, close to Falster, but since the land was reclaimed in 1873, it has been connected to Falster. The orchard's name dates back to 1925, when the fruit plantation was separated into 23 parts. Some of the gardens still have fruit trees from that time.

Our bees visit villa gardens in the direction of Guldborgsund and the meadow east of Hasselø Plantage. It is this combination of garden and meadow that creates the significant soft, creamy, and delicious honey. Some years our summer honey tastes slightly of nuts because the bees have been pollinating chestnut trees.

Our honey is sold in shops and hotels on Lolland and Falster.

Engdige Farm Ancient grain black oat

Engdigegaard has re-cultivated the ancient grain black oat, which we make into organic oatmeal. We make it from specific fields by Guldborg on Falster, where we carefully chose the largest and best grains to turn to oatmeal.

The ancient grain black oat is health-

ier than white oat on all measurable parameters. Among other things, black oat contains many beta-glucans, which influence the amount of cholesterol in the blood.

Black oat tastes amazing and is gluten-free. Engdigegaard black oat is sold in a number of shops around the

country. Find more information about our production on our website.

Falster Distillery & Brewery Specialites from Falster

Falster Destilleri & Bryghus is run by Martin Iversen, who established the company because he found that good and locally produced beer and spirits on Falster was lacking.

Falster Destilleri is the first approved distillery on Lolland-Falster and has specially made copper pot stills from Portugal. Here we produce quality products following methods, which are up to 150 years old. We make Falster gin, rum, whisky, brandy, akvavit,

bitters, and vodka, and experiment with liquor and fortified wine.

We also brew eight types of beer, about 15.000 bottles each year. They are brewed in copper boilers where the most important ingredients are malt, hops, and time to brew. Our beer is always hand brewed, unfiltered, unpasteurised, and tapped by hand.

Fejø Cider® Nature's own cider from Smålandshavet

Fejø Cider lies on the easternmost tip of Fejø, facing the neighbouring islands, Femø and Lilleø. Here, Fejø Cider produces some of the best cider in Europe. Our ambition is to reach the sublime by combining the natural and the cultivated.

Fejø Cider is made from 12 selected cider apples. It ferments for about 6 months in stainless steel cases and then in flasks for at least two months. Most years we make a semi-dry, a dry, and an extra-dry cider.

The orchards have been organic from the beginning, and we do not use sulphur in neither the orchard nor the production. The cider is allowed to wild ferment, and its bubbles are produced naturally at the second fermenting in bottles. We recommend Fejø Cider for sushi,

grilled spareribs, beef brisket and washed-rind cheese. In addition to our classic Fejø Cider we also serve a bubbly "She Cider", a must for receptions and summer evenings on the porch.

Fejø Fruit Vesterled fruit orchard

Fejø has long been known for its fruit orchards, which thrive in the mild climate of the island. The sun shines around 200 hours more over Fejø than over the rest of Denmark.

Thorvald Jensen established his first orchard in 1968. Today his son, Laust Spandet Jensen, manages a modern fruit production with pears, plums, and apples.

When the apples are sorted, any apples not graded high enough for eating as they are, are made into apple juice. Apple juice from Fejø is a mix of handpicked apples and ripe apples, which gives an aromatic juice that balances the natural sugars and acids in the apples. The apples are cold pressed, and the juice is unfiltered.

The juice is warmed very gently to pro-

tect its good taste and properties. We are constantly working with Irma/COOP to develop our range. Part of the orchard is organic, to meet the demands for organic fruit.

We have recently developed our own pear cider and named it 'Katrine' after Laust's daughter – a real Fejø-girl.

Fra Fejø 100 % Danish and organic

The small island Fejø lies just off Lolland's northern shore. It is about 16 km² with about 500 inhabitants. The island is known for its production of apples, pears, and plums. These fruits are the foundation of products from "Fra Fejø".

Our production lies beautifully on the organic manor house, Knuthenlund, on Lolland. This is where we produce our 100 % Danish and organic baby food, which was our first product. Today we also make marmalade, vinegar, sirup, juices and much more.

We produce high-quality products with a high content of fruit and low levels of sugar and additives. You can find our products in more than 350 shops and at www.frafejoe.dk

Frederiksdal Kirsebærvin

World-class cherry wine from Denmark

Frederiksdal Gods on Lolland produces a cherry wine like none other. Stevn-skirsebærret - a local cherry, also called the Grape of the North - is at the heart of the production.

All berries are certified and strictly from our own farms. Our wine has won prizes and is praised by wine critics more than any earlier Danish wines made from Stevns cherry.

Frederiksdal Kirsebærvin is the first company in the world to make wine from cherries after the same principles that have been followed for centuries, but with a new interpretation of the age-old practices.

All in all, this makes cherry wine from Frederiksdal Kirsebærvin a very special experience. The winery on Frederiksdal is open

every day between 10 a.m. to 4 p.m. from June 1st – September 1st. Visit us and taste, learn more about the wine, and buy a bottle to bring home.

Farm Shop Marielyst

Vegetables all summer long

The farm shop, Gårdbutikken Marielyst, belongs to a farm which lies in a low-landed area, which many years ago was reclaimed from the sea. Because of this, the soil is dark, sandy, and great for vegetable production.

Look forward to the taste and quality of

our potatoes, peas, strawberries, carrots, and the many lovely berries you can buy in our shop. You will meet Bo and Michella, who are part of the whole process – we grow the crops, meet you in the farm shop, and give you a true Muld experience from earth to table.

Hideaway Winery and Fig Arboretum Little Toscana on Fejø

Hideaway is the essence of good holiday memories, the Beatles-song

"You've got to hide your love away", and a life-long passion for Italy.

When you visit Hideaway, you will experience a wave of southern inspiration while walking on the 2,3 hectares large farm between vines, palm trees, holly oak, walnuts, and fig trees.

Some of the vineyard's most important co-workers, the geese, will probably bid you welcome while they are busy keeping the grass short under the vines – the organic way of cutting grass!

Our eatery is open in the summer season. Enjoy Italian lunches or bring a picnic basket into the vineyard. Thursdays we have a tour with wine tastings, but remember to check our homepage in advance for changes in schedule.

Hideaway can be rented for parties, meetings, and events.

Hvidkilde Organic Farm Organic Limousine beef

At Hvidkilde Farm we have produced Limousine beef and veal for over 15 years. During that time, we, René and Pernille Lærke, have ensured that all animal fodder we use has been produced at our own farm. We sell our beef with emphasis on quality and trustworthiness.

In the past 7 years, we have converted our production to be organic – in accordance with our own views and to prepare for the future. Our cattle spend all summer grazing on the protected areas around Skejten and Fuglsang Kunstmuseum as a part of the natural landscaping.

Lammehave Organic Farm

Vegetables, honey and animals

We are a diverse farm with many types of crops. Situated next to the Baltic Sea, we enjoy cool springs, sunny and dry summers, and mild

autumns. On our little farm, we have a varied production in Falster's rich and fertile soil.

In close cooperation with nature, we produce high-quality food – more than 30 types of vegetables, lamb, eggs honey, and flour.

Old cereals are grown with the greatest care to nature and made into flour by our own miller. Old types of vegetables fill our vegetable garden with taste and health, and our sheep grass on meadows with varied flora.

We also help people grow. Seven coworkers with different kinds of physical or mental challenges help us in our work. Lammehave Organic Farm is the first private company in Denmark to be approved as an employment offer.

Lollandsgrisen True free-range pigs with curly tails

Lollandsgrisen is a true free-range pig with a healthy, curly tail and its snout deeply buried in Lolland's soil. It lives in the open, on the fields around the Glostrup-farm, on western Lolland.

Lollandsgrisen lives outside all year, but always has access to insulated huts with dry straw.

The pigs love exploring the tall grass, messing around in the mud, investigating, and running about as they please. They are curious, healthy and happy.

This everyday animal welfare also produces better meat, with structure and taste. The Lollandpig gives delicious and juicy pork with a good taste. Our pigs can be seen from the road when you pass by, but you are wel-

come to make an appointment to visit and come closer.

Stinelund Vinery

Eastern Lolland in a bottle

Stinelund Vinery is an organic and regenerative vineyard on Eastern Lolland. We neither fertilize nor spray with fungicides or pesticides. We do

spray with homemade compost-tea and lactic acid bacteria.

We believe that healthy grapes begin with healthy and living soil. We do a lot to stimulate our vines and the microorganisms in the soil, which, we believe, is discernible in the wine.

Our wine is made according to the weather, so our assortment changes from year to year. Some years there will be more bubbles, other years more rosé wines. All our wines should be enjoyed cold and quickly after harvest, since we work organically and with as few sulphites as possible.

Stinelund Vin became certified organic in 2019. Contact Ulrik Damgaard Høegh for a winetasting (at least 4 people)

Grape Delicacies

Homemade delicacies

On a sunny spring day in 1996, a lovely fairy-tale began on our new farm on Lolland.

A thin and bare twig poked out under a little bench by the gable. What could it be? We let it grow – and it turned out to be a 100-year-old Leon Millot-vine. We espaliered it on the sunny gable and then into the garden, where we enjoyed the first strong, sweet, and sour grapes on a warm October-day.

And suddenly we tasted that taste – from a childhood memory of Grand-mother's grape juice and jam - what a walk down Memory Lane.

We nurture the grape's unique and sweet taste and its crimson colour, which we have spent 25 years developing into our very own chemistry-free and hand harvested Leon Millot-grape delicacy.

It tastes magical.

Østergaard Vinery Hand-made special wines

Østergaard Vinery produces hand-made special wines from locally grown grapes and fruit.

Our grape wines are made from grapes from our own vineyard that are

especially suited for white wine and rosé wine.

Some years, we make red wine from dried grapes. Our fruit wines are primarily made as ice wine, which gives an exciting and intense taste, well-suited for desserts and cheeses.

Lollands mild climate and high-quality soil yields some of the best grapes, fruits, and berries in Denmark. We constantly develop and improve the quality of the grapes. The winemaker's primary task is to get the most out of the soils qualities, both regarding grape wines and fruit wines.

The vineyard is well worth a visit. Book a tasting tour for groups or visit the farm shop where we sell all the wines from Østergaard Vinery.
